Hello everyone, my name is [Your Name]. It's a pleasure to meet you all virtually.

I am currently a student at [Your School/University], where I am pursuing a degree in nursing. Prior to this, I completed my [previous degree/certificate] at [previous institution], and I have worked as a [related job title or experience] for [number] years.

My passion for nursing stems from a deep desire to help others and make a positive impact on people's lives. I am particularly interested in [specific area of nursing or healthcare], and I believe that nursing provides a unique opportunity to combine science with compassionate care.

I am very interested in the Quality and Safety Education for Nurses (QSEN) competencies because they are crucial for providing high-quality patient care. Understanding and applying these competencies—such as patient-centered care, teamwork and collaboration, and evidence-based practice—will be essential for my future career. I am eager to learn more about how these principles can improve patient outcomes and enhance the overall healthcare environment.

Thank you for listening to my introduction. I look forward to learning with all of you this semester and working together to develop our skills in nursing and QSEN competencies. Have a great day!
